

Guided Task 10: Linting

Objective

In this task, you'll practise using linting in Python.

Duration: 30 minutes

Instructions

```
def count(sequence, item):  
  
    y = 0  
  
    for n in sequence:  
  
        if n == item:  
  
            y += 1  
  
    return y
```

1. Get 10/10 with pylint on this program.

Well done, you've completed this guided task!
